

"The best way to anticipate the future is by understanding the present"
- John Naisbitt

ISON CONSULTING

Project Management Services

The Context of Project Management

At ISON every Project Management Consultancy professional appreciates the context of Good Project Management and knows the objective of delivering a satisfied & elated customer

ISON's understanding of Projects

A project is a temporary Endeavour that involves Time & Effort to create a Product or Service (called "Project Deliverables")

WHEN PROJECTS FAIL

- Changing scope outside planning
- Insufficient pre-planning of activities
- Risks are not managed or anticipated
- Issues are not managed with finesse
- Poor communication between teams
- Lack of commitment by stakeholders

WHEN PROJECTS SUCCEED

- Expectations are met on both the client & supplier side
- Delivery of the pre-defined objectives is met
- Project is completed within an agreed budget &
- Within an agreed time frame
- Professional execution leads to a delighted client

Project Management Lifecycle & Objectives

An ISON PM performs his duties guided by the Performance Objectives defined in the process below. We don't believe in half-jobs done and will always 'Govern & Execute' the Project through its entire 'Lifecycle'

GOVERNANCE & CONTROL

- Financial Management
- Status Reporting & Information flow
- Deliverables Tracking
- Dispute Resolution
- Relationship Management
- Program Management

PROJECT LIFECYCLE

PLANNING

- Project Definition/Objectives
- Project roles
- Task List/Work Breakdown Structure/Schedule
- Project Budget
- Assumptions, constraints & critical success factors

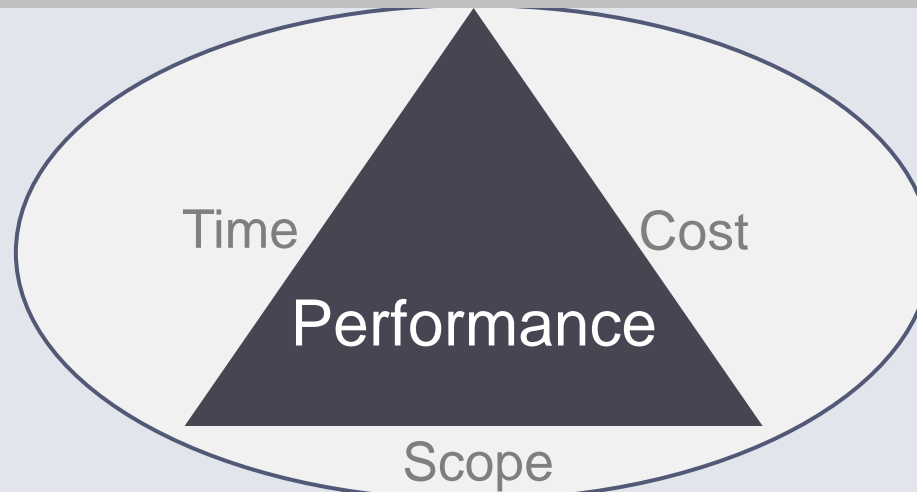

EXECUTION

- Product/ Service Deliverables to be achieved on time & within budget
- Change requests & Issues handled
- Deployment, Testing & Performance Measurement

CLOSURE

- Evaluation & Acceptance Documentation
- Contractual closure
- Project Review
- Document Best Practices

BALANCING
TIME,
COST,
& SCOPE

WITHOUT
COMPROMISING
PERFORMANCE
